

BOTTLE NEK FREEZER CHAMP 7

Bruttopreis:
18 759 €

Nettopreis:
15 251 €

Bottle neck freezers help to remove yeast sediment that settles inside inverted bottles during the remuage process, in the production of sparkling wine, traditional champagne, méthode champenoise and in the production of cider.

The freezer is made of stainless steel, with wheels.

Technical specifics of the device:

- Chiller with compressor
- Working plate with 7 holes for bottles
- Working temperature -25 ° C
- Digital thermostat for temperature control
- Stainless steel frame mounted on wheels
- One year warranty
