

EXZENTERSCHNECKENPUMPE TYP M

Inexpensive and robust eccentric screw pump, directly driven by a three-phase motor, 2 speed. Scope: transporting thick media at the first speed level and pumping liquid media at the second speed level.

Optional, additional equipment (additionally payable):

- pressure sensor, V4A stainless steel housing with ceramic membrane, IP67 protection class
- Bypass
- Dry-run protection

Pumpentyp	Baugröße	Drehzahl (UpM)	Fördermenge Q (l/h)
AT 50 M	1 - 6 L	700 / 1400	3000 / 5300
AT 100 M	2 - 6 L	700 / 1400	5000 / 10000
