

FERMENTATION TEMPERATURE CONTROL SYSTEM CUBE S

Bruttopreis:
799 €

Nettopreis:
650 €

The Cube S control system is positioned directly on the tank in an immersion sleeve. This means that direct indication and operation is possible in the cellar. The standard bus system integrated in the controller facilitates linking to the PC and use of the software available as an accessory (option). The robust stainless steel controller housing is a water protected design suitable for the harsh everyday conditions encountered in cellars.

FEATURES

- Temperature range -9.9... 99.9 °C
- 6m connecting cable with open-ended cable
- LED display for target and actual value
- LEDs for CO2 intensity, output status, operating mode
- Unit °C/ °F
- 2 relay outputs for heating + cooling, 20 VA each
- Integrated bus system for PC connection
- Probe shaft length 170 mm for installation in immersion shaft sleeves
- Integration in immersion shaft sleeve with M12x1.5 mm internal thread
- 24 V/50 Hz supply voltage
- Power input 2 VA
