

## GRAVITY FILLER FOR WINE, MODEL B10

**Gross price:**  
**45 021 €**

**Net price:**  
**36 602 €**

Gravity pourer for wine, made of stainless steel. Equipped with a pump integrated with the buffer tank by level sensors. 10 pouring nozzles. Infusion on the so-called level. Efficiency: about 1200 b/h. Dimensions: 750x700x1800mm. The device supports glass bottles in the capacity range from 0.375 to 1.5 liters. The column of the filler together with the fillers rotates around its own axis. The operator, standing still, places the next bottles under the pouring nozzles.
