

MANUAL LABELLING MACHINES FLEXLABELLER EVOLUZIONE

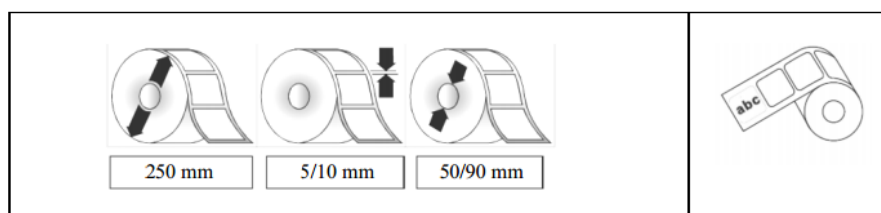

Bruttopreis:
4 115 €

Nettopreis:
3 346 €

Flexlabeller EVOLUZIONE is designed to stick labels on cylindrical bottles or containers with a diameter between 50 mm and 120 mm. It is perfect for containers of glass, jars, plastic, cans or for other cylindrical objects with smooth surface. Adaptation of Flexlabeller to the different types of containers is very easy and quick thanks to the particular regulation system. The new lever system is think of to minimize the effort and movement speed up the process of labelling, however, it remains precise and accurate. The labeler is made of polyethylene PE500, widely use for components in food machinery, it's waterproof and easy to clean.

Detailed description of the labels roll:

 Maksymalna waga rolki: 3 kg
