

SEMI-AUTOMATIC SINGLE COIL LABELING MACHINE FOR BOTTLES AND JARS, FX10H

Bruttopreis:
17 454 €

Nettopreis:
14 190 €

FX-10H is a semi-automatic table-top labelling machine, able to stick front and back label during the same cycle. The product is standing on a small platform in between the three rollers. This machine allows to label round glass bottles but also glass jars. With appropriate options it is possible to read reference marks, to stick a label referred to a special lid and even installing a marking system. The machine has an essential stainless steel structure and a ribbed roller for the silicone paper with quick releasing. It is in conformity with EC safety standards and the electronic board with microprocessor enables to use different labelling variants.

TECHNICAL FEATURES

DIMENSIONS	700MM X 615MM X 480MM
Weight	55kg
Voltage	230V - 50Hz (opt. 110V - 60Hz)
Installed Power	0,2 kW
Sound Level	40 decibel
Hour production	700 b/h
Max. label height	140mm (opt. 190mm)
Max. label lenght	280mm (opt. 340mm)
Round bottle diametre	50-120mm (opt. 17mm - 200mm)

Dimensioni - Dimensions	700 mm x 615 mm x 480 mm (h)
Peso - Weight	55 kg
Alimentazione - Voltage	230 V – 50 Hz (opt.: 110 V – 60 Hz)
Potenza installata - Installed power	0,2 kW
Livello sonoro - Sound level	40 decibel
Produzione oraria - Hourly production	800 b/h
Lungh. max. etichetta - Max. label length	280 mm
Alt. max. etichetta - Max. label height	140 mm (opt.: 190 mm)
Diam. bott. cilindrica - Cyl. bottle diam.	60 mm › 120 mm (opt.: 20 mm/200mm)
Lato bott. Quad. - Square bottle side (opt.)	35 mm › 100 mm
