

SLOTTED TANK PNEUMATIC PRESSES, TECNOVA

Horizontal pneumatic press with side membrane certified in accordance with current European Directive in force, with slotted AISI 304 stainless steel. High draining surface thanks to a high slots number placed along the surface. Large double door manually opened and closed with mechanical safety lock. Pressing membrane consisting of heavy fabric coated with a food grade polymer, it inflates totally even in the absence of product, no minimum load required. Quick fastening system without perforation of the membrane. Frame entirely made of AISI 304 stainless steel with large juice collecting pan and side covers can be opened for cleaning. Electric control panel and covers entirely made of AISI 304 stainless steel, in compliance with current European Directives in force.

Machine equipped with compressor for membrane inflation and blower for vacuum. Safety side protection and emergency button for user's safety. This machine meets current European Directive in force.

Automation

Simple and user-friendly operator interface E-panel with "Touch-Screen" to easily access to programming pages. It allows the management and programming of all working cycles and monitoring of the working cycle and press status. 30 pressing programs are stored in the PLC plus a "Rocking" system for tank oscillation and M.I.P. Intelligent Programm for optimizing the pressing cycle time.
